

## REMARKS

On June 7, 2006, the undersigned conducted a telephone interview with the Examiner in charge of this case. In that interview, the undersigned emphasized that the documents to Ogino et al. and Honda et al. are not understood to disclose or suggest the concept of enabling the reproduction on a display of information needed to properly display and view a stereoscopic image, as recited in independent Claims 1, 5, and 7. As a result, Applicant's representative requested that the outstanding rejection of the claims over these documents in the January 26, 2006 Office Action be withdrawn. In response, the Examiner requested that the claims be amended to clarify the relationship between the information needed to properly display and view a stereoscopic image, the predetermined information, and the control information. In addition, the Examiner agreed to withdraw the outstanding rejection over the documents to Ogino et al. and Honda et al., if Claim 1 was amended to specify that the type of transmitted information is one of the types of information recited in Claim 2, and if the claims were amended to clarify the relationship between the various kinds of information recited therein (independent Claims 5 and 7 already specifying the type of information to be recorded or transmitted). The Examiner also noted that even if the claims are so amended, he would still be required to conduct an updated search before he would allow the claims.

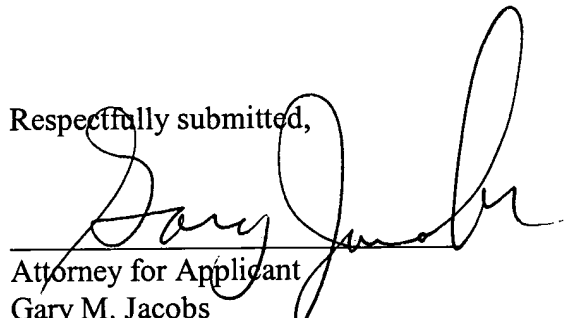

In response, while not conceding the propriety of the outstanding rejection, 1) the claims have been amended to delete reference to "predetermined information" and "control information", thereby rendering moot the objection to the lack of recitation of the relationship between these kinds of information and the information needed to properly display and view a stereoscopic image, and 2) Claim 1 has been amended to specify the kind of information to be transmitted for

recording and display. Therefore, Applicant respectfully requests that the outstanding rejection be withdrawn.

In view of the above amendments and remarks, the application is now in allowable form. Therefore, early passage to issue is respectfully solicited.

Applicant's undersigned attorney may be reached in our Washington D.C. office by telephone at (202) 530-1010. All correspondence should continue to be directed to our below listed address.

Respectfully submitted,

Attorney for Applicant
